Brief Description of Arguments to be Presented: The newly cited reference (Delurgio) seems to be concerned with optimizing prices of products for sale within a product category. Delurgio generally fails to teach how to model an operating parameter for a store (i.e., regardless of product categories) and particularly fails to teach all the claim limitations as recited in claim 19.

An interview was conducted on the above-identified application on **[REDACTED]**. NOTE: This form should be completed by applicant and submitted to the Examiner in advance of the interview (see MPEP § 713.01). This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.

Brief Description of Arguments to be Presented (Continued):

Claim 19 was previously allowed by Examiner Tamara L. Graysay of Art Unit 3636. Claim 19 has not been amended since it was first allowed. The present Office Action is silent as to the withdrawal of allowability and the new rejection appears to reorient the point of view of the previous examiner, which is inconsistent with MPEP 704.01. Applicant respectfully requests full faith and credit be given to the search and action of the previous examiner and the allowability of claim 19 be reinstated.
